WaterBlue Features

- Use the WaterBlue software to configure and manage the terminal
- WaterBlue is compatible with most pumps used for water dispensing
- Fully configurable parameters
- Restrict access to water by time with programmable in-service hours
- Easy-to-read screen with high visibility in all light-levels
- Both weather and vandal resistant, thanks to a rugged, corrosion resistant, aluminium cabinet
- Can operate year-round and in extreme weather conditions
- Provides convenient management and easy configuration through its on-screen menu
- Multiple units (litres, gallons, kilos or cubes) provide accurate measurements for different locations

Specifications

- Dimensions: H 35.5 cm (14")
  W 33 cm (13") D 35.5 cm (14")
- Weight: 8 kg (18 lbs)
- Electrical: 120/230 VAC, 50/60Hz
- CSA inspected
- Output type: dry contact
- Temperature: -40°C (-40°F) to 50°C (122°F)

Up and Running Fast

- Start using WaterBlue immediately. Same day installation and testing
- Factory configured with the most common settings for easy testing upon installation
- All display prompts and error messages pre-initialized
- All parameters verified and tested by factory technicians
