Fleet Key Features

- Use ProFuel 2 to configure and manage the Fleet

- Fleet is compatible with most pumps used for fuel and liquids dispensing

- Fully configurable parameters for all pulser ratios and safety timers

- Restrict access to fuel by time with programmable in-service hours

- Easy-to-read screen with high visibility in all light-levels

- Both weather and vandal resistant, thanks to a rugged, corrosion resistant, aluminium cabinet

- Can operate year-round and in extreme weather conditions

- Provides convenient management and easy configuration through its on-screen menu

- Multiple units (litres, gallons, kilos or cubes) provide accurate measurements for different liquid types and locations
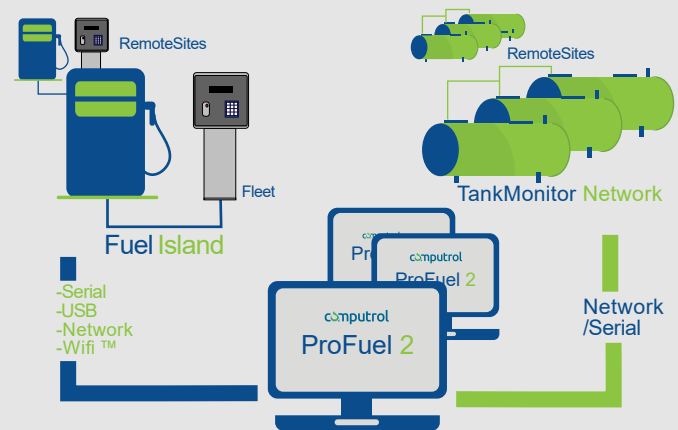

Specifications

- Dimensions: H 35.5 cm (14") W 33 cm (13") D 35.5 cm (14")

- Weight: 8 kg (18 lbs)

- Electrical: 120/230 VAC, 50/60Hz

- CSA inspected

- Output type: dry contact

- Temperature: -40°C (-40°F) to 50°C (122°F)

- Humidity: 5% to 95% non-condensing

Up and Running Fast

- Start using the Fleet immediately. Sameday installation and testing

- Factory configured with the most common settings for easy testing upon installation

- All display prompts and error messages pre-initialized

- All parameters verified and tested by factory technicians
